WELCOME ABOARD

As captain of the Robinson R44 helicopter I wish you all a pleasant flight with all the security and comfort, while enjoying the exceptional views of the Douro.

During our flight, we will fly over the Alto Douro Region, UNESCO World Heritage since 2001. With this privileged view, guests can appreciate all the elements of the Douro River landscape. From small villages to the famous quintas (wine estates) with its characteristic terraces, this trip will give you moments of rare beauty.

I can't forget to mention the unique show provided by the incomparable leaf colors of extensive vineyards and its variations throughout the day and different seasons of the year, which makes every journey always different from the previous.

We shall share with you some details of Douro Region's history and show you the notorious wine estates along the river.

I wish a wonderful trip to all!
Carlos Figueiredo

MONUMENTAL DOURO

Duration 20 min | Price per flight | not including aircraft ferry to Douro

330€

MONUMENTAL DOURO Tour with an estimated duration of 20 minutes, will take guests through main landmarks of the region, such as the railway station of Régua, dated 19th century and the Nossa Senhora dos Remédios Sanctuary in Lamego.
